### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claims 23-31 and 33-43 are presented for examination.

The amendments and remarks filed on March 13, 2008 have been received and entered.

Claims 23-31 and 33-43 are rejected under 35 U.S.C. 103 (a) as being unpatentable over Viegas et al. (US 5,587,175) in view of Chang (US 6,051,560) and further in view of Christ et al. (US 6,254,587) for the reasons set forth on pages 4-5 of the office action of November 14, 2007.

Applicant's arguments and declaration have been carefully considered, but are not deemed to be persuasive. Applicant alleges criticality to mixing the antibacterial and viscoelastic agents, and as a result preventing the bacteria from becoming enveloped by the viscoelastic agent. Applicant submits an article in his declaration to demonstrate such action. The allegation is not well taken. There is no evidence of record to demonstrate the superior activity of the antibacterial agents when mixed with viscoelastic agents in comparison to the administration antibacterial agents in combination with viscoelastic agents. Applicant's arguments regarding the lack of the teachings of the prior art in preserving or treatment of bacterial infection have been noted. Applicant is reminded that Vegas et al. teach the use of antibiotics in combination with viscoelastic agents for ophthalmic administration as old. To preserve or treat bacterial infection is considered to be an inherent property of the antibacterial active ingredients. It is also expected that known antibacterial agents to be effective for treating the bacterial infection of topical or interior section of the eye. Applicant has presented no evidence to

establish the unexpected or unobvious nature of the claimed invention, and as such, the prior rejection sustains.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ZOHREH A. FAY whose telephone number is (571)272-0573. The examiner can normally be reached on Monday to Friday 9:30-6:00.
